TO CARPENTERS, JOINERS, AND OTHERS.

WANTED, by a respectable Young Man in the country, a SITUATION, in a good shop, as IMPROVER; in or near London preferred.—Please address A.B.C. to be left at Wroughton Post-office, near Swindon, Wilts.

TO PLUMBERS, PAINTERS, AND GLAZIERS.

WANTED, by a Young Man, EMPLOYMENT as PLUMBER. No objection to fill up his time with Painting and Glazing in town or country.—Address, A. B. Office of "The Builder," 1, York-street, Covent Garden.

TO PAINTERS, BUILDERS, &c.

WANTED, by a Young Man, a SITUATION as WRITER and GRAINER. He thoroughly understands House Painting, and has no objection to fill up his time. Good reasons may be given.—Address H. D. 28, Caledonia-street, King's-cross.

WANTED, by a Young Man, in his 21st year, a SITUATION in a BUILDER'S OFFICE, or on the Works. He is practically acquainted with building, and has had some experience as a Surveyor's Office.—Address, pre-paid, W. R. S. 15, Essex-street, Islington.

TO BUILDERS AND OTHERS.

WANTED, by a Married Man, aged 38 years, a PERMANENT EMPLOY; he understands painting, paperhanging, and jobbing carpentering, brickwork, &c. Can look after a horse and cart. No objection to the country. Can be strongly recommended.—Address, J. H. WELD, House Mail, Kensington Gravel-pits.

TO CONTRACTORS, BUILDERS, AND OTHERS.

THE Advertiser, a Young Married Man, for several years engaged on public works, as Clerk, Timekeeper, or Gauger, wishes a PERMANENT ENGAGEMENT at home or abroad. Can take out quantities, measure work and survey.—Address, H. M., Mr. Bagley's, Stationer, Ironmonger-street, Stamford, Rutland.

TO PLUMBERS, BUILDERS, &c.

A YOUNG MAN, aged 27, a first-rate Plumber, and who also understands and has been used to Paint as and Glazing, both common and good work, desires an ENGAGEMENT, either in Town or Country. He has undeniable references as to sobriety and punctuality, and would be found deserving any appointment of trust.—Address W. R. 34, Hereford-street, Lisle-street, London.

ARCHITECTS and BUILDERS are invited to [illegible] Messrs. BOWER and CO.'s PATENT ARCHITECTURAL ORNATURE, by which an immense saving is effected both in time and expense. Price of the Illustrated Tariff, 1s.; post free 1s. 6d. Patterns to be seen at 324, Hampstead-road. The Prize Medal was awarded to Messrs. B. and Co. for this invention.

OLD MANSIONS and BUILDINGS of every description PURCHASED to pull down, for immediate sale.—Mr. C. P. SMYRK (late of Kennington Lane) begs to announce that he is, as of former, a purchaser of property of the above description to any amount, no objection to distance. If convenient to the rail or water carriage, regarded the purchase is of an object unobjectionable.—Apply to Mr. C. P. SMYRK, Auctioneer and Valuer, Mina Road, Old Kent Road.

TO CAPITALISTS AND BUILDERS.

BOURNEMOUTH, near Christchurch and Poole.—After much deliberation, it has been determined to erect a Sanatorium at Bournemouth, in connection with the Hospital for Consumption and Diseases of the Chest, established at Brompton. The extraordinary salubrity of Bournemouth has been long acknowledged by Sir James Clarke, Dr. Granville, and other eminent physicians, and most abundantly proved by the successful results which have attended a sojourn in that most healthful vale. There has long been a demand for houses, as well for residents as for visitors, but there has not been any adequate supply of sites suitable for building purposes until the present time. The proprietors of the Branksome Estate, which comprises both sides of the Bourne Valley to the extent of more than two miles in length, are now prepared to OFFER to the public most eligible SITES for BUILDING, either immediately contiguous to the very spot selected for the Sanatorium, or in its neighbourhood, or at a greater distance from it, as may be preferred. Roads have been formed, and various other important improvements have been made, and one now in progress, for bringing into notice the capabilities of this lovely locality, which for all purposes of health or enjoyment is not to be surpassed in England.—For further information apply to Messrs. WINTER, WILLIAMS, and Co. Solicitors 18, Bedford-row, London; or 1, Richmond-terrace, Bournemouth, near Poole.

TO ARCHITECTS.

AN ARCHITECT in London is willing to DISPOSE OF his PRACTICE, having been engaged for some years on various public and private works. This would be a desirable opportunity for any one about to enter the profession.—Apply by letter to F. S. G. Office of "The Builder," 1, York-street, Covent-garden.

BARBICAN FOUNDRY, PLYMOUTH, with DWELLING-HOUSE, &c. TO BE LET, with immediate Possession.—The Steam Engine, Plant, Patterns, Lathes, Proving Machines, Fixtures, Tools, &c. will be Let with the Foundry, or may be taken at a Valuation. The Premises are extensive, and adjoining Southed to Quay, in Sutton Harbour. The Engine and Plant are in good order, and can be immediately set to work.—Apply to Mr. BAILY, Solicitor, Plymouth.

DESIRABLE WHARF TO LET, on the Regents Canal, at Battle Bridge.—TO BE LET, on lease for a term of Sixty-Five years, a very convenient WHARF, with Dwelling Rooms, and offices suitable for the Timber, or Coal Trades, or the erection of a Factory of any description. The depth is about 130 feet, with water frontage on two sides, 200 ft. in length, and very convenient approaches.—For further particulars, apply at 20, Gray's Inn-lane.

TO LET, a BRICK FIELD, with immediate possession, on the line of the Great Western Railway, near Maidenhead Station. The field is in full work, with every preparation for making 1 million stock and washed bricks. The clay is of very superior quality, is 10 feet deep, 4 feet of which is malm earth. The bricks made in this field last season were much approved of in the London market.—Apply to Mr. J. WETHERED, Maidenhead, Berks.

TO PAPER MAKERS.

TO BE SOLD BY PRIVATE CONTRACT, the VALUABLE MACHINERY of the IPSWICH PAPER MILLS, which have been erected without regard to expense by the late proprietors within the last three years, for making fine papers.

The machinery consists chiefly of—

A powerful high-pressure and condensing steam-engine (Sims's patent) of 40-horse power, with Hall's patent condenser, and two steam boilers.

A 16-horse power condensing engine, by Boulton and Watt, with Hall's patent condenser and boiler.

A 6-horse power high-pressure table engine, recently erected to drive the two paper machines.

Eight beating engines and rag washers, by Piper and others.

One paper machine (with cast-iron cast vat, agitator, and gearwork, 18 feet diameter), fitted with 1st, 2nd, and 3rd press roll-, air pumps, vacuum boxes, drying cylinders, calenders &c. &c. for 60-inch paper, and driving gearing complete.

One ditto ditto, for 40-inch paper.

One of Rannie's patent sizing machines for 40-inch paper, with driving gear complete.

Two of Rannie's patent drying machines, for 60-inch paper, with driving gear complete.

Two excellent 60-inch cutting machines.

Four sets of glazing rolls, fitted driving apparatus, tables, &c. complete.

One double powerful hydraulic press and pumps, used for paper

One hydraulic press and pump, used for bolt-steel.

Three bleach preparing vats, with agitators and gear-work.

One stone bleaching engine, and twenty bleaching stone vats, &c.

Further particulars may be obtained upon application to GEORGE HURWOOD, C.E. Ipswich.

TO GLASS MERCHANTS AND BUILDERS.

THOMAS ENGELBACK, Glass Bender, No. 10, Threw-street, Brick lane, Spitalfields, begs to inform them that he has built a very large Furnace for Bending Glass, and can undertake to bend any size glass up to 12 feet long, by 7 feet wide, at low prices.

STEPHENS'S ORIGINAL DYES, for STAINING COMMON DEAL to imitate OAK, MAHOGANY, or SATIN WOOD colours. For specimens of the effects of these Dyes, the public are referred to the WOODWORK of the GREAT EXHIBITION, and particularly the ENTRANCE DOORS, which were coloured with the stains invented and manufactured by HENRY STEPHENS, of 34, Stamford-street, Blackfriars-road, who supplied to the workmen both stain and varnish, and who was the first person to introduce and call the attention of the public to this mode of colouring wood, so as to bring forth the ornamental effect of the natural grain and thus save the expense of artificial imitation.—Prepared and sold by HENRY STEPHENS, 34, Stamford-street, Blackfriars-road.

WANTED, to PURCHASE, a new STEAM-ENGINE, of two or three-horse power, upon the most simple construction, and in the most complete form, high pressure; price required for cash, with and without the boiler; and there with particulars of dimensions, and weight of both.—Address, post paid, to A. B. the Chanter Coffee-house, St. Paul's, London.

STEAM-ENGINES of every description, Corn and Flour Mills, Paper Machines, Rag Machines, Saw Mills, Sugar Mills, Water-wheels, Girders and all other sorts of Iron Castings, manufactured by HENRY HOUGHTON, Stratford Iron Works, Canal Pits.—JAMES MELROSE, Agent, 76, Hatton-garden.

STEAM-ENGINE BOILERS of every description, Wrought-iron Girders, Gasometers, Ship Tanks, Sugar and Salt Pans, Canal Boats, Cisterns, and General Wrought-iron-work, manufactured by MELROSE and COWLEY, Bradley Works, near Bilston, Staffordshire.—Office in London, 76, Hatton-garden.

QUARTZ-CRUSHING and GOLD-WASHING MACHINERY.—ATLAS WORKS COMPANY, Essex-street, near Southwark-bridge, Engineers, Millwrights, and Copersmiths.—Engines and machines made on the most improved principles; repairs promptly executed; contracts entered into for large or small orders. To be seen at the works. Gwynne's Patent Amalgamator and Pulveriser, for the grinding, washing, and separating of gold quartz, &c. All communications addressed to THOMAS ELLIS, Secretary, either at the Counting-House, 4, Dowgate-hill, or the works, Emerson-street, near Southwark-bridge.

TO CABINET MAKERS BUILDERS &c.

COULSON'S REGISTERED MORTISING MACHINE.—This machine is of a very superior make, being entirely built of wrought iron and cast metals; is fitted-up with six chisels, will mortise hard wood as well as soft, and works by a hand-lever, not by a foot spring. For ease in working, correctness, and durability, it by far surpasses any other.—For particulars, &c. apply to WILLIAM COULSON, No. 32, Feiter-lane, York. Cash price, 14 lbs.—N.B. Parties can also be furnished with cutters to the above machine for tenoning, if required.

COLLINGE'S PATENT HINGES.—Sole Manufacturers, CHARLES COLLINGE and Co., 64 and 65, Bridge-road, Lambeth, where a great variety are always on view for church, park, railroad, coachhouse, and other gates and doors of large and small dimensions, a gate of a ton weight moving with these hinges as easily as a wicket. Ornamental hinges, adapted for drawing rooms, &c.; doors fitted with these hinges may be removed and replaced in an instant. Rising and double-acting spring hinges, and superior gate fastenings, at moderate prices None genuine unless marked "Charles Collinge, Patent, Lambeth." Plain and ornamental cast and wrought iron work, for building and other purposes. Engines, machinery, patent axletrees, sugar mills, &c.

FOUNDRY AND IRON WORKS,
49, DRURY-LANE, and CHARLES-STREET, DRURY-LANE.
GLOVER, BROS.,

solicit the attention of the Trade to their extensive Stock of PATTERNS for CASTINGS of EVERY DESCRIPTION, either structural or ornamental.

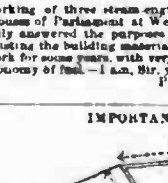
Patterns of Girders, Columns, Balconies, Railing, Ornaments Carriage and Park Gates, Lamp and Street Posts, Tanks, Pipes Wheels, Pinions, Lathes, and Steam engines; Range and Hot-plate Metal. An improved Soot Door adapted for internal work.

A large stock of Rain-water Pipes, Plain and O G Gutters, Air-bricks, Stench Weights, Air-tight Sewer Grates, Stable Fittings, Hurdles, &c.

Plain and Ornamental Vases 20 per cent cheaper than Terra-cotta.

Estimates given for Iron Buildings, Wrought-iron Roofing, Greenhouses, Staircases, Wrought-iron Girders, Fireproof Doors, Book and Iron and Strong Rooms, Tanks and Boilers, and every description of iron work in specification, and the work executed with every attention to quality and despatch.

GLOVERS' IRONWORKS
168, DRURY-LANE, and CHARLES STREET.



A SAVING of TIME and MATERIALS, with solidity of building.

NATHAN GOUGH'S PATENT PORTABLE STEAM-ENGINES of 2, 3, 4, and 6-horse power, for grinding mortar, raising building materials, driving piles, circular saws, pumps, &c., 46, Albert-street, Manchester.

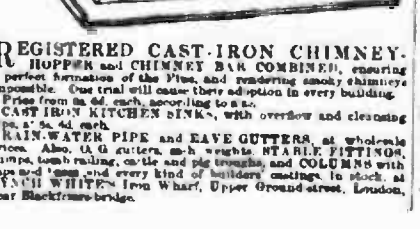
TESTIMONIAL
from Charles Barry, Esq.:—
2, Great George-street, Westminster, London, Oct. 27, 1849

Mr. Nathan Gough,

Sir,—I have, for Mr. Barry, the pleasure of replying to your request of the 4th inst., for a testimonial of the working of three steam engines you have supplied to the New Houses of Parliament at Westminster, by saying that they have fully answered the purposes for which they were required, viz., hoisting the building materials; and two of the three have been at work for some years, with very little repairs, and with considerable economy of fuel.—I am, Sir, your obedient servant,

Per pro CHARLES BARRY,
ALFRED MEEson.

IMPORTANT TO BUILDERS.



REGISTERED CAST-IRON CHIMNEY-HOPPER and CHIMNEY BAR COMBINED, ensuring a perfect formation of the Flue, and rendering smoky chimneys impossible. One trial will cause their adoption in every building. Price from 6s. 6d. each, according to size.

CAST IRON KITCHEN SINKS, with overflow and cleansing pipe, 2 ft. 6d. each.

RAIN-WATER PIPE and EAVE GUTTERS, at wholesale prices. Also, O G gutters, 4-in each weights, STABLE FITTINGS, pumps, trough railing, cattle and pig troughs, and COLUMNS with caps and bases, and every kind of builders' castings. In stock at the LYNCH WHITE'S Iron Wharf, Upper Ground-street, London, near Blackfriars-bridge.

TO GAS COMPANIES AND OTHERS.

PARTIES having any SECOND-HAND GAS APPARATUS to DISPOSE OF are requested to forward particulars of same, stating the size, weight, and price to JOSIAH F. FAIRBANK, Gas Engineer, Scarborough.
Scarborough Gas Works, June 15, 1852.

DAMP WALLS.—NEW PATENT PAINT, as used at the TOWER, by order of HER MAJESTY'S HONOURABLE BOARD of ORDNANCE; at the TUNNEL, ZOOLOGICAL GARDENS, Regent's park, and various other public and private buildings; in quantities to finish twenty square yards for 14s.

PATENT LIQUID CEMENT for the fronts of houses for beauty and economy, giving the appearance of Bath cut stone, and only one-fourth the cost of Oil Paint. In casks of 5, 7, and 10 cwt. at 6s. 6d. and 8s. each.

PATENT MINERAL ZINC PAINTS, invaluable for cheapness, beauty, and permanence, ready for use. White Stone and Lead, 1s. Green and Blues, 2s. per gallon.

BLACK MINERAL PAINT, very permanent, half the usual price; only 1s. per gallon.

NEW PATENT COLOUR for inside work, may be applied on Wood, Stucco, Cement, or over Oil Paint. Will smell, and will dry in an hour. In casks of 1 cwt. at 14s.

G. BELL and CO. Steam Mills, 8, Wellington-street, Gravel-street, London.

WHITE, or OXIDE of ZINC.—LANGSTON, SCOTT, and WHITE, Patentees and sole Manufacturers in the United Kingdom, are now furnish SHIPPERS and the TRADE with a large and regular supply of WHITE ZINC, for paint, enamelling, paper staining, glass, gutta percha, floor-cloth, &c. &c. of uniform quality as colour, and superior body.

Monthly contracts made, and sample casks of not less than 1 to 5 cwt. forwarded (warranted pure) from their works.

Grand Surrey Canal Dock, Rotherhithe, London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—The PERMANENT WHITE of the Ancients by its costliness hitherto restricted to the use of the artist, is now offered at the ordinary oil or water colour of white lead.

Four years since the proprietors placed their manufactures on a large scale, and put this elegant Paint in competition with White Lead.

Its continued superiority over every other paint hitherto known brought forward various imitations.

These inferior productions, frequently made from zinc ores containing lead, arsenic, and other deleterious material, while injurious to health, deficient in body, and reducing the price remunerative to which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence that it was the same.

Hubbuck's paint is entirely free from any injurious property whatever. It is healthful in the manufacture, healthful in use, and healthful to occupants of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior paints, each cask is stamped

"HUBBUCK, LONDON, PATENT."

and if the cask has not been so marked, the reason is obvious.

The powdered White Zinc also may be had for grinding it; also for use for porcelain cards, for japanners, for cutta percha, for plaster decorations, and the other purposes where it is used with size, gum, varnish, spirit, &c. &c.

A circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the Lyceum, Strand.

PURE PATENT WHITE ZINC PAINT, from the VIEILLE MONTAGNE ZINC MINING COMPANY of BELGIUM.—This PAINT is superior in every respect to white lead; it is unequalled in whiteness and grows very hard after it is applied, and is, therefore, for interior work, an excellent flatting polish. Besides, it is entirely free from all poisonous influences, unaffected by sea-water, sulphuretted hydrogen, or any gases in the preparation of white colour, which white lead does not do.

WHITE ZINC PAINT causes none of the ravages to which communicated by white lead upon the human frame; neither painter's colic, nor paralysis, &c. &c. to which dangerous complaints the workmen and manufacturers who use it are subject, and to which persons who inhabit newly-painted apartments are also liable. Since its introduction into the United Kingdom by the patentees, Dry Coloured Zinc has met with the most ardent professional support, and it their preference over any other paint. The public is cautioned that if white zinc paint is adulterated, it becomes a very inferior paint, instead of a first-rate one, and peels or washes off in rainy weather.

The VIEILLE MONTAGNE ZINC COMPANY import Zinc from its works in Belgium WHITE OXIDE of ZINC in any powder, and the casks bearing their mark, VM, are said to be considered as genuine, and may be obtained, for grinding in oil, of any of their Agents, residing in the following towns viz. Leeds, Liverpool, Birmingham, Hull, Newcastle Lowestoft, Bristol, Bristol, Plymouth, Norwich, Ipswich, Dublin, Cork, Belfast, and Jersey.

The same oxide ground "pure" to a White Zinc Paint may be obtained from the Company's Agents of the above-named localities, and likewise from their Grinders, Messrs. DEVAUX and Co. 69, King William-street, City, London, and Messrs. ROBT. ANDERSON and Co. Timber Bush, Leith, Scotland. Pure White Zinc Paint may likewise be purchased from Messrs. BLUNDELL SPENCE and Co. Hull.

For further particulars apply to Mr. H. F. SCHMOLL, General Agent for the United Kingdom, at the Company's offices, 11, Manchester-buildings, Westminster-bridge, London.

THE WASHINGTON CHEMICAL COMPANY, NEWCASTLE-ON-TYNE;
Manufacturers of

PATTINSON'S OXICHLORIDE of LEAD.—The Washington Chemical Company having, during the last year, established a Manufactory of Pattinson's Oxichloride of Lead on a large scale, and being able to supply it with regularity and to execute orders without delay, now proceed to bring the new and valuable preparation of Lead before their friends and the public, quite sure that it will not, in the present age, be condemned because it is new, and that if judged by its merits, it must make its way, and finally take its place as one of the important manufactures of this country.

Pattinson's Oxichloride of Lead is a chemical combination of one equivalent of Chloride of Lead, and one equivalent of Oxide of Lead; it being well known that common White Lead is a chemical combination of one equivalent of Oxide of Lead, and one equivalent of carbonic acid, constituting what is called in chemical language, Carbonate of Lead. Now there is no reason to conclude that Carbonate of Lead is the only compound of Lead valuable as a paint, and still less that it should be the best compound of lead for that purpose. In point of fact it is not so for the newly discovered Oxichloride in most, if not in all respects is far superior; its colour is brilliantly white, and in a number of cases it has been tried against the best White Lead that could be obtained, and after a period of upwards of two years it has been found to retain its white colour, considerably better than the lead against which it was tried.

But the chief and by far the most important attribute it possesses is, its remarkable and very decided superiority of Body, by which term the power of covering surface well and economically is understood among Painters. The attention of the Washington Chemical Company was at a very early period drawn to this circumstance, and since that time the Washington Chemical Company have had abundant opportunities of placing its superiority in this important particular beyond all doubt. They have themselves performed a number of experiments, and have also caused a number of experiments to be performed, in the large way, by various practical men, to ascertain accurately its covering power as compared with the best White Lead, and they have found it to be as 8 to 10, that is, 80 lbs. of Oxichloride Paint will cover as much surface as 100 lbs. of the best White Lead, the mixing of each being in the same proportion; besides this, the coating is thicker and more perfect, so that when the Oxichloride dries also it forms a hard, tenacious layer, more like an Enamel than paint.

In using the Oxichloride, no difference in the materials with which it is mixed is required. Oil and Turpentine being employed in the usual both for what are technically called Flatting, and for work intended to be varnished. For the use of Paper Hangers and Leather Dressers, the Oxichloride is found to be peculiarly suitable. The Washington Chemical Company strongly recommend this newly-discovered substance to the notice of consumers, both on account of its economy, and its intrinsic good qualities as a paint.

OFFICE IN LONDON.—Mr. H. COOKE, No. 7, Sun-lane.

Office of the Washington Chemical Company,
72, Grey-street, Newcastle-on-Tyne, January 1, 1852.
